

Silicon Sky

By Gary Dorsey

Perseus Books Group. Paperback. Book Condition: New. This item is printed on demand. Paperback. 352 pages. For more than a decade some of the worlds most powerful defense companies have raced to launch the first constellation of low-earth orbit commercial satellites. The prize An explosive global market for personal communications worth billions of dollars. Fresh out of Harvard Business School, twenty-something David Thompson entered the fray with an insane idea: to build his own rockets, satellites and a multi-million-dollar corporation that could go head-to-head against the big guys. His electrifying grab for the heavenshuge start-up costs, mind-blowing technical obstacles, and dark tangos with investorsis told by acclaimed writer Gary Dorsey, who was there reporting from inside. The story of their obsessive gamble in the high-stress game of space commerce is told through the lives of Thompsons managers, markets, and freshoutsa brilliant team of young engineers from the countrys best universities. Like The Soul of a New Machine, Silicon Skypart of the celebrated Sloan Technology Seriesreads like fast-paced fiction, tracing the advent not just of a single company, but of a quickly emerging technological industry. This item ships from La Vergne,TN. Paperback.
