

The Anatomy of the Central Nervous System of Man: And of Vertebrates in General (Classic Reprint) (Paperback)

By Ludwig Edinger

Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Anatomy of the Central Nervous System of Man: And of Vertebrates in General Not without a certain does the author come with this edition before his circle of readers. Though the previously small book has now grown to larger proportions, still it presents a subject which has not previously been comprehensively treated: the comparative morphology of the central nervous system. Three parts have arisen from the original little work: parts which are so far independent of each other that they who have less interest for the more general matters and for comparative anatomy, by turning past the first two parts will find in the third a somewhat enlarged and richly-illustrated edition of the old book. Grateful for the interest which the medical profession have manifested in the work, the third part, which deals exclusively with the mammalian, and especially with the human, brain, has been carefully rewritten and enlarged through the addition of numerous figures made from photographs of sections. In order to facilitate the study from sections a complete series of frontal sections through the entire brain has...
