Prufrock Press. Paperback. Book Condition: New. Paperback. 180 pages. Dimensions: 10.8in. x 8.4in. x 0.5in. From writing mysteries, to the human genome project, these model lessons for the core academic areas will excite your students and save you planning time. In addition to the 12 model lessons provided, the book includes a step-by-step guide to developing lessons that emphasize depth and complexity. All of the materials focus on ways to align the middle school curriculum with established national standards and offer strategies to evaluate learner achievement. The writers who contributed lessons to this book are all outstanding educators who were selected based on their subject area expertise and experience in curriculum writing. They worked tirelessly, writing, revising, and rewriting, creating model lessons that have set a high standard for middle school teachers. The lessons have been grouped by grade level as they share a common theme. The grade level designations are, to some degree, for demonstration and example purposes only. In a particular classroom, lessons from other grade levels may be equally appropriate. The most important goal of this book is the hope that, with the examples of curriculum excellence and the theoretical background, teachers will begin to develop standards-based lessons and units of study that will promote high-end learning for gifted students in middle school. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
