Imagine if we could shut off all negative thoughts, so that everyone was only thinking positive thoughts. What a wonderful world we would create! In her latest exploration of the link between modern-day science and the paranormal, Ingrid Fredriksson explores the power of thought: the experiments that have been carried out, the experiences that can be had and the possibilities that have yet to be discovered. She shows the links between magnetic fields and yogic practices, between quantum mechanics and remote viewing, and discusses the impact that thought can have on our everyday lives. The Power of Thought builds upon Ingrid Fredriksson s earlier works, Flow Forever and The Third Book.
