Alphascript Publishing Dez 2009, 2009. Taschenbuch. Condition: Neu. Neuware - High Quality Content by WIKIPEDIA articles! Biopiracy has emerged as a term to describe the ways that corporations from the developed world allegedly claim ownership of or otherwise take unfair advantage of, the genetic resources and traditional knowledge and technologies of developing countries. Biopiracy allegedly contributes to inequality between developing countries rich in biodiversity, and developed countries served by pharmaceutical industry exploiting those resources. Many developing countries have drawn political and ethical analogies between perceived biopiracy and intellectual piracy, claiming that whilst the developing world is often guilty of disrespecting copyright, patents and other intellectual property, the developed world is often guilty of disrespecting the ownership of indigenous biological resources. 84 pp. Englisch.
