By M. J. Savage

Forgotten Books. Paperback. Condition: New. This item is printed on demand. 258 pages. Dimensions: 9.0in. x 6.0in. x 0.5in. Excerpt from The Religion of Evolution In some form the theory of evolution is now accepted by nearly all the leading scientific and philosophic students of the world. It is rapidly giving its own shape to the thought of civilization. Science, art, human life, religion, and reform are becoming its disciples; and their tendencies in the near future must be largely determined by it. Workers in many departments of thought have already reshaped their teachings into accordance with its principles; but so far as I know, in this country, no book has been devoted to a discussion of its effect upon religion. This volume makes no claim to completeness. It is only an essay in answer to the question, if evolution is true, what have we left in the way of religion.
