Hogrefe Publishing, Canada, 2012. Mixed media product. Book Condition: New. Neuauflg.. 254 x 180 mm. Language: English . Brand New Book. This title covers such subject areas as: Medicine; Health Sciences; Nursing; Rehabilitation Medicine; Classification of Disorders; and, Health and Medical Psychology. It is suitable for practitioners and students of physical and rehabilitation medicine, physical therapy, occupational medicine, physiotherapy, as well as prosthetics/orthotics, and health and medical psychology, and for the ICF Research Branch, in cooperation with the WHO Collaborating Centre for the Family of International Classifications in Germany (at DIMDI). It provides practical, standardized tools to assess and document functioning, disability, and health according to the WHO ICF in a variety of health conditions and settings. The WHO's International Classification of Functioning, Disability and Health (ICF) is the accepted common framework for understanding and documenting functioning and disability. The ICF Core Sets selected for this book have now been developed to facilitate the standardized use of the ICF in real-life clinical practice and thus improve quality of care. By using this collection of clear checklists, definitions, and forms, clinicians will quickly and easily be able to assess clients with a range of typical health conditions at different stages...

Reviews

This type of publication is almost everything and helped me looking forward and much more. I am quite late in start reading this one, but better then never. You wont really feel monotony at whenever you want of your own time (that's what catalogs are for relating to if you ask me).
