The consequence has been that people have been unable to judge of the relative value of the various observations they may read or make, and from a want of the necessary perspective are liable to draw wholly wrong and sometimes ridiculous conclusions. In this work the author has endeavoured to gather together everything of importance that has been written upon the subject; to arrange and classify it, to weigh the evidence on either side, to reject what is worthless, and point out the value of what remains. In this investigation he has attempted to divest himself of all prejudice, whether of tradition or custom, which might tend to warp his judgment, and has, therefore, often found himself obliged to treat as debatable, assumptions which inveterate association has rightly made shameful to doubt, but which, undisturbed, would make the discovery of truth impossible.
